dear customer,

i'm very happy to welcome you as our new b+b customer and hope you will enjoy our products.

If you have any questions, complains or ideas regarding our products please feel free to contact us. we will do our best to help you fast.

feel free to let me know too if you made a hit using one of them!

for the demo

if you want to buy the full 128 preset bank with over 200+ sounds, visit our website / online shop at
http://dettenbach.com/sounds/synthesizer_presets/bb_for_novation_peak/

package content

the zip archive (of the full version) contains a full patch / preset bank file with synthesizer 128 presets and a folder with all of the patches in single files for individual usage. the presets only works with the NOVATION PEAK SYNTHESIZER.

for flexible usage each single preset file has one or two 3-char postfixes, representing the type of the sound. the pack contains the following types. many presets (or variants) fit into more then one category. these list shows only the main type (as saved in the PEAK).

- BAS | Bass: 21
- KEY | Keyboard: 10
- LED | Lead: 9
- POL | Poly: 5
- STR | String: 10
- CLA | Classic: 8
- BEL: | Bell: 5
- ARP | Arpeggio: 13
- SFX | Special Effects: 7
- MOT | Motion: 16
- PAD | Pads: 9
- PER | Percussion: 15

all the preset / patch files are in industry standard sysex files. This means they could be loaded into the synthesizer by the official „COMPONENTS" librarian from NOVATION as by any working third party MIDI sysex tool.

however: we recommend to use the official one, which can be downloaded here:
https://global.novationmusic.com/circuit-components

usage

most presets have one or more variants which could be called by the (dimmed or lightning) ANIMATION button.

most presets could further modified during play or by MIDI by the MOD-WHEEL and/or aftertouch and are velocity sensitive.

in a few presets the function of MOD-WHEEL or aftertouch will be enabled or change their behaviour by a ANIMATE button(s) – i.e. to avoid unwanted aftertouch play or to change the modulation path(es).

license and license transfer

only the paid invoice (with your name and the order id on it) from our online shop is your license approval. the name on the invoice is the only license holder. see the attached license agreement for any further details.

license agreement

Please read the terms of the following agreement before using this software.

The sounds that came with this agreement are the property of dettenbach audio, which in turn is the property of Niels Dettenbach. The sounds are licensed – not sold – to you, for use in your music productions.

The right to use enclosed sounds is only granted to the original end-user of the product. This right is not transferable. If the product is sold, yours and the buyers license are no longer valid.

All lending, renting, copying, duplicating, trading or reselling of this product or its contents is naturally not allowed. You may neither upload or download this product or any sounds from it, on the Internet.

You can use the sounds in any type of commercial or private music production without permission or paying any further fees than the original price of the product. You may modify the sounds to your needs. The only restriction is that you must not use the sounds in an isolated manner – for public releases the sound must always be used in a musical context. You are not allowed to create a sample library based on the sounds you purchase from dettenbach audio / Niels Dettenbach.

The sounds provided are licensed "as is" without warranties of any kind. Neither the producer, nor dettenbach audio can be held responsible for any direct or indirect or consequential loss arising from the use of this product in whatever form.
